

# Capture Purer Data, Faster

Reportum® is a scalable SaaS solution for the capture, management & processing of adverse events and product quality complaints.

Adverse Event management is still largely an inconsistent and manual process across life science organisations, resulting in poor data quality and ever-increasing costs.

Reportum supports pharmacovigilance teams, vendors and reporters by providing a centralised solution for multi-lingual data capture across all intake sources.

## INCREASE STANDARDISATION

Enable global consistency through a centralised solution for all intake sources.

## INCREASE EFFICIENCIES

Streamline processes, automate transfer and reduce follow up.

## ACCELERATE INSIGHTS

Accelerate analysis of individual or aggregate safety reports.

## TRANSFORM SAFETY DATA CAPTURE FOR:

- ✓ DIRECT PATIENT/HCP REPORTING
- ✓ REMS & RISK MANAGEMENT PLANS

- ✓ PATIENT SUPPORT PROGRAMMES
- ✓ MARKET RESEARCH PROGRAMMES

- ✓ MEDICAL REPRESENTATIVES
- ✓ CALL CENTRES & AFFILIATES

# RESOLVE THE CHALLENGES OF SAFETY DATA CAPTURE

## CAPTURE THE RIGHT DATA, FIRST TIME

Capture standardised data through an intuitive local language interface accessible anytime via any device.

- > Intuitive, empathy-driven interface
- > Standardised case data
- > Accessible via any device
- > Multi-lingual

## STREAMLINE PHARMACOVIGILANCE PROCESSES

Highly configurable platform that enables deployment in line with company branding, workflows & portfolio requirements.

- > Automated workflows
- > Auto-translation
- > Auto-distribution & redaction
- > System notifications

## SEAMLESS INTEGRATIONS

Seamlessly transfer data between systems to optimise the end-to-end pharmacovigilance process.

- > E2B (R2/R3) transfer
- > Auto reconciliation
- > Integration with upstream and downstream systems

## ENHANCED VISIBILITY AND CONTROL

Real time access to safety data enables rapid signal management.

- > Real-time reports
- > Enhanced KPI tracking
- > Complete audit trail
- > Regulatory reporting and analysis

## PROVEN, SCALABLE PLATFORM

**Reportum®** is a trusted and secure digital platform founded by a team with deep domain expertise in drug safety and software engineering.

### PROVEN TECHNOLOGY

High volume global use by Top10 Pharma

### HIGHLY SCALABLE

Hosted on AWS Cloud infrastructure

### FUTURE PROOF

Continuous industry driven development
