## TRANSFORM SAFETY DATA CAPTURE FOR:

- ✓ DIRECT PATIENT/HCP REPORTING
- ✓ PATIENT SUPPORT PROGRAMMES
- ✓ MEDICAL REPRESENTATIVES
- ✓ REMS & RISK MANAGEMENT PLANS
- ✓ MARKET RESEARCH PROGRAMMES
- ✓ CALL CENTRES & AFFILIATES

*"Reportum is **user-friendly, intuitive, simple to administrate**, and the system benefits are appreciated by both the end-users and departments."*

## Out-of-the-box drug safety platform for rapid implementation across multiple intake routes

The client had engaged several different partners to support the capture and management of adverse event reports, product quality complaints, and medical information requests. Therefore, the solution needed to ensure the capture of information in a consistent, digital format across all organisations and by all user-types - and be implemented in time for product launch.

### CLIENT CHALLENGES

#### COMPLEXITY

Multiple services organisations and reporters increase the complexity of processes and workflow

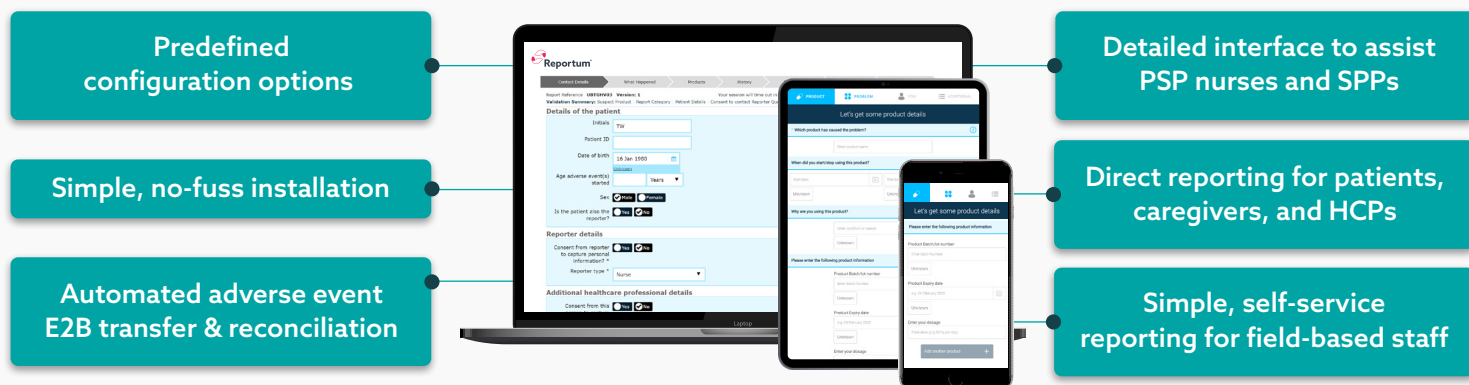

#### TIMELINES

Short window to implement safety reporting system in time for launch

#### USER INTERFACE

Requires tailored workflow experiences to meet the needs of different user types

### REPORTUM SOLUTION: ENABLED KICK-OFF, VALIDATION, AND GO-LIVE WITHIN WEEKS

### BENEFITS

Reportum QuickStart provided our client with a centralised solution to capture standardised data across multiple intake routes.

#### COMPLIANCE

- ✓ **Standardised** safety reports across all vendors
- ✓ **Simplified** data review & QC process
- ✓ **Supported** by responsive & highly experienced team

#### EFFICIENCY

- ✓ **Streamlined** data capture & management processes
- ✓ **Reduced** manual data entry, minimizes transcription errors
- ✓ **Eliminated** manual AE reconciliation

#### USER EXPERIENCE

- ✓ **Intuitive**, dynamic interface to support all user types
- ✓ **Single system** for entry of AEs, PQCs and MI enquiries
- ✓ **Reduced** data entry burden for field-based staff & PSP nurses
